Brooklyn, New York 11232

February 15, 2022

Chief Judge Margo K. Brodie
United States District Court
Eastern District of New York
225 Cadman Plaza East
Brooklyn, NY 11201

Re: **Administrative Order No. 2020-14**

Dear Chief Judge Brodie:

The Court has ORDERED that the MDC and MCC respond to concerns about the institutions' response to the COVID-19 pandemic.

Inmate orderlies continue to clean the common areas of all housing units, and inmates have been instructed to continue to wipe down and sanitize their living quarters.

Please be advised that the following numbers reflect the most current data of staff and inmates located at MDC Brooklyn.

With regard to the numbers as of February 15, 2022, for MDC¹:

- Inmate Population: 1,690
- Inmates in Isolation: 4
- Inmates Recovered: 864
- Inmate Deaths: 1
- Inmates Vaccinated: 948²
- Staff Population: 615³
- Staff Positive: 4

¹ As of February 7, 2022, MDC Brooklyn has resumed legal visiting.

² This does not include the number of inmates that were vaccinated at another institution or prior to incarceration. The decrease in this number is due to inmates that have been transferred to another institution.

³ This is the current number of staff at MDC Brooklyn, with the additional staff relocated from MCC New York.

- Staff Recovered: 186⁴
- Staff Hospitalized: 2
- Staff Vaccinated: 507

Institution operational levels (Level 1, Level 2, or Level 3) are based on the facilities' COVID-19 medical isolation rate, combined percentage of staff and inmate completed vaccinations series, and their respective county transmission rates. At each level, an infection prevention procedure or modification to operations such as inmate programming and services may be made to mitigate the risk and spread of COVID-19 in accordance with BOP pandemic guidance. BOP pandemic guidance follows and integrates guidance and direction from CDC, OSHA, DOJ, and established medical best practices.⁵

Per BOP COVID-19 Operational Levels, MDC Brooklyn is Level 3. Operational Level 3 is determined if medical isolation rate is greater than 7%, or facility vaccination rate less than 50%, or the community transmission rate less than 100 per 100,000 over the last 7 days. MDC Brooklyn determined its Operational Level 3 based upon the community transmission rate.

Operational Level 3 requires cohorting modifications necessary and social distancing in all areas. Staff are required to follow the full COVID-19 Pandemic Plan including facility-wide use of face coverings, surgical or N95 masks as indicated. Staff symptom screening is required daily; COVID-19 symptom screen and temp check prior to entry into the institution (enhanced screening).

If there is any specific information the Court requires from the institution, we will be happy to provide it.

Respectfully submitted,

/s/

F. Martinez, Jr.
Warden
MDC Brooklyn

⁴ Three (3) staff members have not returned to work for an extended period.
