IN RE:
CORONAVIRUS/COVID-19 PANDEMIC

**AMENDED
ADMINISTRATIVE ORDER
NO. 2021-04-8**

ELEVENTH AMENDMENT OF ADMINISTRATIVE
ORDER 2020-26 AND FURTHER TEMPORARILY
SUSPENDING SOME IN-PERSON PROCEEDINGS

-----X

The COVID-19 pandemic continues to impact the Eastern District of New York and the operations of this Court. Although vaccines are now widely available and significant portions of the populations in the counties comprising the District have received at least one dose of a vaccine, many people, including court employees, have not been vaccinated, and a significant percentage of vaccinated individuals may soon have waning immunity and be susceptible to infection.¹ In addition, at the Metropolitan Detention Center in Brooklyn, where most of the District’s defendants are detained, it appears that the majority of inmates have not been vaccinated,² and operational restrictions and limitations on the movement of detainees within the facility and to and from court remain in place and continue to constrain the court’s ability to conduct all criminal proceedings in-person. Further, cases have continued to rise in recent weeks, particularly in areas with lower vaccination rates, in part due to the presence of more transmissible variants, such as the Delta variant.³ Therefore, continued vigilance with mitigation strategies remains important, as does continued monitoring of the effectiveness of the vaccines against current and future variants. After consultation with the Court’s epidemiologist and upon consideration of the foregoing circumstances, and balancing the need to assist in the preservation of public safety while effectively administering justice during a critical period in the COVID-19
